Contents

Special Issue: Forest Soils Research: Theory, Reality and its Role in Technology

Kick-off

Forest soils education and research: Trends, needs, and wild ideas
R.F. Fisher (Diboll, TX, USA), T.R. Fox, R.B. Harrison (USA) and T. Terry (Weyerhaeuser Company, WA, USA) 1

Section 1: Forest Soils Research Needs for Developing Sustainable Criteria

Progress towards more uniform assessment and reporting of soil disturbance for operations, research, and sustainability protocols
M.P. Curran (Nelson, Canada), R.E. Miller (Olympia, WA, USA), S.W. Howes (Portland, OR, USA), D.G. Maynard (Victoria, Canada), T.A. Terry (Centralia, WA, USA), R.L. Heninger (Springfield, OR, USA), T. Niemann (Victoria, Canada), K. van Rees (Saskatoon, Canada), R.F. Powers (Redding, CA, USA) and S.H. Schoenholtz (Corvallis, OR, USA). 17

The North American long-term soil productivity experiment: Findings from the first decade of research
R.F. Powers (Redding, CA, USA), D. Andrew Scott (Pineville, LA, USA), F.G. Sanchez (Research Triangle Park, NC, USA), R.A. Voldseth (Grand Rapids, MN, USA), D. Page-Dumroese (Moscow, ID, USA), J.D. Elioff (Grand Rapids, MN, USA) and D.M. Stone (USA) 31

Indices of soil nitrogen availability for an ecological site classification of British forests
S.McG. Wilson (Aberdeen, UK), D.G. Pyatt, D. Ray (Midlothian, UK), D.C. Malcolm (Edinburgh, UK) and T. Connolly (Midlothian, UK) 51

Do rates of litter decomposition tell us anything we really need to know?
C.E. Prescott (Vancouver, Canada) 66

Carbon and nitrogen in forest soils: Potential indicators for sustainable management of eucalypt forests in south-eastern Australia
P. Hopmans (Heidelberg, Australia), J. Bauhus (Freiburg, Germany), P. Khanna (Göttingen, Germany) and C. Weston (Creswick, Australia) 75

Methods of microbial community profiling and their application to forest soils
S.E. Leckie (Vancouver, Canada) 88

Effect of clear-cutting and site preparation on the level and quality of groundwater in some headwater catchments in eastern Finland
H. Mannerkoski, L. Finér, S. Piirainen (Joensuu, Finland) and M. Starr (Helsinki, Finland) 107

Section 2: Use of Forest Soils Research for Landscape Level Management

Variation in infiltration with landscape position: Implications for forest productivity and surface water quality
T.J. Sauer, S.D. Logsdon (Ames, IA, USA), J. Van Brahana and J.F. Murdoch (Fayetteville, AR, USA) 118

Soil erodibility and erosion hazard: Extending these cornerstone soil conservation concepts to headwater streams in the forestry estate in Tasmania
P. McIntosh and M. Laffan (Tasmania, Australia) 128

Soil and foliar phosphorus as indicators of sustainability for *Pinus radiata* plantation forestry in New Zealand
D.J. Palmer, D.J. Lowe (Hamilton, New Zealand), T.W. Payn, B.K. Höck (Rotorua, New Zealand), C.D.A. McLay (Hamilton East, New Zealand) and M.O. Kimberley (Rotorua, New Zealand) 140

Section 3: Fire Effects on Soils and Ecosystems

The effects of wildfire, salvage logging, and post-fire N-fixation on the nutrient budgets of a Sierran forest
D.W. Johnson, J.F. Murphy, R.B. Susfalk, T.G. Caldwell, W.W. Miller, R.F. Walker (Reno, NV, USA) and R.F. Powers (Redding, CA, USA) 155

doi: 10.1016/S0378-1127(05)00658-4

Post-fire vegetative dynamics as drivers of microbial community structure and function in forest soils
S.C. Hart (Flagstaff, AZ, USA), T.H. DeLuca (Missoula, MT, USA), G.S. Newman (Flagstaff, AZ, USA), M.D. MacKenzie (Missoula, MT, USA) and S.I. Boyle (Flagstaff, AZ, USA) 166
The role of fire and nutrient loss in the genesis of the forest soils of Tasmania and southern New Zealand
P.D. McIntosh, M.D. Laffan (Tasmania, Australia) and A.E. Hewitt (Canterbury, New Zealand) 185
Coarse woody debris dynamics in a post-fire jack pine chronosequence and its relation with site productivity
S. Brais, F. Sadi, Y. Bergeron and Y. Grenier (Quebec, Canada) 216
A comparison of soil properties after contemporary wildfire and fire suppression
J. Hatten, D. Zabowski, G. Scherer and E. Dolan (Seattle, WA, USA) 227

Section 4: Forest Soils and Carbon Sequestration
Forest soils and carbon sequestration
R. Lal (Columbus, OH, USA) 242
Experience with patterns of change in soil carbon resulting from forest plantation establishment in eastern Australia
J. Turner, M.J. Lambert (Eastwood, Australia) and D.W. Johnson (Reno, NV, USA) 259
What the soil reveals: Potential total ecosystem C stores of the Pacific Northwest region, USA
P.S. Homann (Bellingham, WA, USA), M. Harmon, S. Remillard (Corvallis, OR, USA) and E.A.H. Smithwick (Madison, WI, USA) 270
Soil carbon distribution and quality in a montane rangeland-forest mosaic in northern Utah
H. Van Miegroet (Old Main Logan, UT, USA), J.L. Boettinger, M.A. Baker, J. Nielsen (Logan, UT, USA), D. Evans (Old Main Logan, UT, USA) and A. Stum (Logan, UT, USA) 284
Long-term changes in forest floor processes in southern Appalachian forests
J.D. Knoepp (Otto, NC, USA), B.C. Reynolds (Asheville NC, USA), D.A. Crossley (Athens, GA, USA) and W.T. Swank (Otto, NC, USA) 300
Nitrogen-fertilization impacts on carbon sequestration and flux in managed coastal Douglas-fir stands of the Pacific Northwest
A.B. Adams, R.B. Harrison, R.S. Sletten, B.D. Strahm, E.C. Turnblom and C.M. Jensen (Seattle, WA, USA) 313

Conference Overview and Wrap-Up
Forest soils research and changing societal needs and values
W.W. McFee (West Lafayette, IN, USA) and J.M. Kelly (Blacksburg, VA, USA) 326
